M2 GLOBAL CHAIRMAN NAMED TO SHINGO PRIZE BOARD OF GOVERNORS

February 2nd, 2004
San Antonio, TX

M2 Global, Inc. is pleased to announce that its president and chairman of the board, Douglas Carlberg, has been reappointed to the Shingo Prize Board of Governors. Previously Mr. Carlberg served as vice president of operations for Harris Corporation Microwave Communications Division. Under his leadership, the division's San Antonio operation received numerous awards including the Shingo Prize for Excellence in Manufacturing, the Organization for Quality and Participation's Organizational Excellence Award, and IndustryWeek's Top 25 Best Plants in North America.

The Shingo Prize, established in 1988, promotes awareness of lean manufacturing concepts and recognizes companies that achieve world-class manufacturing status. Today, the Shingo Prize is regarded as one of the premier manufacturing award and recognition programs. *Business Week* magazine considers it "the Nobel Prize of Manufacturing."

The Shingo Prize is presented to manufacturing sites that have achieved dramatic performance improvements. Prize recipients report phenomenal statistics such as reducing setup times by one million minutes per year, achieving inventory turns of 250 per year, and cutting lead times from months to days. The Shingo Prize highlights the value of using lean manufacturing practices to attain world-class status. Winners of the Prize are invariably organizations that make it a priority to continually strive to improve their core manufacturing processes.

Utah State University's College of Business administers the Shingo Prize, which is awarded annually. The Prize is open to manufacturers in the United States, Canada, and Mexico and to researchers worldwide.

M2 Global Solutions, Inc. is the general partner of M2 Global Technology, Ltd. and M2 Global, Inc. M2 Global Technology is a worldwide supplier of microwave components and contract manufacturing. M2 Global Solutions offers consulting and training services in strategic planning, lean improvement process, and assessment services.
